

## Nursery Health Policy

We have a 24 hour policy for illness in the Nursery program. If your child has any of the following symptoms, we ask that you please do not bring him/her to the Nursery until your child is free of these symptoms for 24 hours:

- 100 degree (+) temperature
- Vomiting or diarrhea
- Infected skin rash or impetigo
- Other contagious or communicable disease (e.g. hand, foot, and mouth disease, scarlet fever, chicken pox, pink eye etc.)

**ALLERGIES:** Please alert the teachers if your child has any food or environmental allergies. It may be necessary to have a medical plan in our files to protect children from exposure to anything to which they are allergic. Teachers are not allowed to administer any medication to children during Nursery. If an Epi-pen is necessary, teachers will need to be provided one to have in their classroom for your child.
